

Commercial Vehicle Systems Braking Systems

ArvinMeritor is the worldwide braking leader in both size and capability for the commercial vehicle industry, supplying over 2 million brake assemblies per year for trucks, trailers, buses and coaches.

The company is the only braking system manufacturer who can offer a complete portfolio of brakes: air disc, hydraulic disc, and air drum: as well as drums, discs and hubs.

The product line extends in North America to the latest generation electronic braking systems (EBS), designed to meet virtually all commercial vehicle stopping requirements.

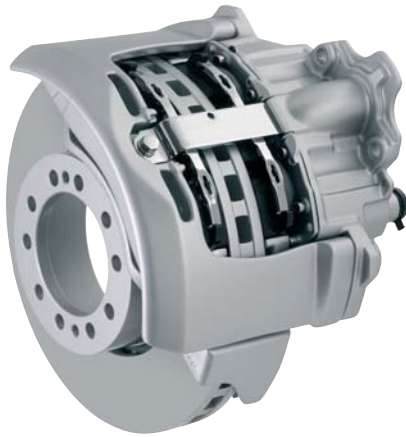

Our experience enables us to recommend and supply the optimum solution for all applications around the world - tailored to give optimum reliability and cost of ownership.

On the service side, ArvinMeritor's complete braking systems allow OEM's and vehicle operators to work with one reliable and expert supplier for service, warranty and replacement parts needs.

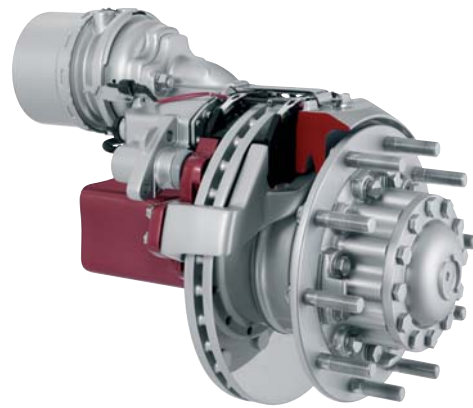

MERITOR[®]

an **ArvinMeritor** brand

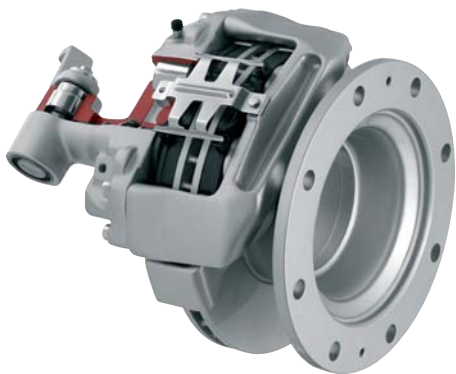

Air Brakes

ArvinMeritor were the first to market with a full range of Air Disc Brakes to suit all applications. In addition the company is the world's largest producer of Z-cam, S-cam, and wedge Air Drum Brakes.

Drums and Discs

ArvinMeritor enjoy a market leading position with cost of ownership optimised through the application of advanced predictive techniques and innovative manufacturing processes.

Hydraulic Brakes

Hydraulic Disc Brakes products are tailored to market requirements with in-wheel parking available. Automatically adjusted Hydraulic Drum Brakes are applied regionally in North America and Asia.

ABS and Air Brake Control Systems

The Meritor WABCO joint venture leads the North American market by a large margin in application of ABS and EBS air brake control systems.

Friction Products

Friction materials for every application are available, developed in partnership with friction material suppliers.
