

**EDWARD A. FRUTIG**  
**Vice President and General Manager, Chassis Systems**  
**Light Vehicle Systems**

Ed Frutig is the vice president and general manager of Chassis Systems within ArvinMeritor's Light Vehicle Systems (LVS) business group. In this position, he is responsible for leading the business unit's accelerated plan for profitable growth through customer-focused initiatives, including global expansion, and commercialization of advanced-engineering products.

Prior to taking this position in March 2007, Frutig served as vice president of Global Sales and Engineering at Cooper-Standard Automotive, leading engineering, sales, program management and finance for the company's Fluid Systems business. Additionally, he was responsible for integrating the sales and engineering services of recent acquisitions into the Cooper-Standard Automotive Fluid business unit, utilizing best processes and organizational structure principles.

Previously, he worked at ZF Lemford, holding various positions with global responsibility for sales and program management, as well as marketing and business strategy development for the suspension and chassis business. Frutig has more than 20 years of automotive experience, including various leadership positions at Visteon, Ford Motor Company and General Motors. Ten of those years have been specifically focused in the chassis systems arena, where he's been recognized by the industry and by customers for his leadership skills and innovation.

Frutig holds a Master of Business Administration from the University of Detroit and a bachelor's of science in mechanical engineering from the University of Michigan. He is a member of the Society of Automotive Engineers (SAE).

ArvinMeritor, Inc. is a premier global supplier of a broad range of integrated systems, modules and components to the motor vehicle industry. The company serves light vehicle, commercial truck, trailer and specialty original equipment manufacturers and certain aftermarkets.
