

## Product Information

# Elsa 2 and Elsa 195 Housing Kits

Commercial Vehicle  
Aftermarket

Braking Products

Housing kit shown left:  
Elsa 2 MCK1345  
Opposite hand would be:  
MCK 1346

**Manual Adjuster**

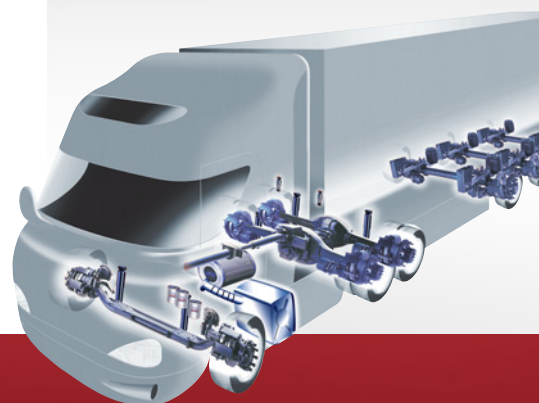

Housing kit shown right:  
Elsa 195 MCK1332  
Opposite hand would be:  
MCK 1331

The modular construction of our Elsa 2 and Elsa 195 brakes allows for the housing assemblies to be changed without the need to remove the full brake, thus reducing repair times and costs.

It should be noted that when ordering a replacement housing kit, the hand required can be established by reference to the position of the manual adjuster stem. Examples of each hand are shown above.

The eight figure part number for the brake can be found on the aluminium identification plate fitted around the adjuster boss.
